Sachet Template (5mL-7mL)

120mm x 90mm (un-folded size)

60mm x 90mm Finished Size

Seal Area (Graphics can print on this area, keep live text away from seal area)

Film Specifications

3" core-thick walled
9.0-9.5" OD
Sealant wound in
film unwind direction and
text orientation #2

Eye Spot

On film back, outside edge at cut off
Color-Contrast to background
size 1/4 by 1/4"
Important: keep the channel at
the edge of the film where the eyespot is
located free of other markings as
they may activate the photoeye.

Artwork

We recommend that there be no definite
demarcation between the bottom of one
pack and the top of the next but rather
that there be a continuous background
color/design throughout.
There may be a slight variation in the cut off
which will be detectable with a continuous background.
